---

When searching on line for [BMW Kent](#) , you will see numerous BMW car dealers Kent returned on page one. They may not all be relevant to what you are actually trying to locate though. Some of these dealers only sell used cars, some sell new and some are only service and MOT centres and purely focus on the aftersales market. One independent car dealer really does have the edge though and can be considered a one stop shop for all things BMW. This is Big Motoring World Kent who have a massive selection of used vehicles, offer car finance and have a dedicated service centre and MOT testing facility.
